Lucita, can you give me a call tomorrow so I can go over this project with you before I start? I just need to know things like naming protocols and footers.

You can extract pages and save them each as a new document. I can work on that tomorrow.

The complete 2017 AR is available on the Region 8 UIC webpage at:
<https://www.epa.gov/uic/epa-dewey-burdock-class-iii-and-class-v-injection-well-draft-area-permits>

The only giant public comment document is *All Public Comments Regarding the Revised Dewey-Burdock Uranium In-Situ.pdf*

Kate, since you are the Adobe wizard  but luckily without the beard, is there an easy way to split the document as you scroll through each comment? Otherwise, we could print the pages for each separate comment to a separate pdf file while scrolling through it.

Hey there – I just talked with Erin, and she suggested that since we likely at least indirectly considered information from

Ex. 5 AC/AWP/DP

On the public comments, instead of giant pdfs, I think we'll need an entry and separate pdf for each comment.

Thanks! Lucita
